DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-5, drawn to a butylphthalide soft gel capsule.

Group II, claims 1 and 6, drawn to a butylphthalide soft gel capsule wherein the butylphthalide includes an optical isomer of claim 6.

Group III, claims 1 and 7, drawn to a butylphthalide soft gel capsule further including an antioxidant.

Group IV, claims 1 and 8-10, drawn to a butylphthalide soft gel capsule wherein the capsule materials include gel, plasticizer, and water.

Group V, claim 1, 8, and 11, drawn to a drawn to a butylphthalide soft gel capsule wherein the capsule materials include gel, plasticizer, water and antiseptic agents.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is drug-containing oil comprising butylphthalide and a vegetable oil. Daunter (WO 95/00157) teaches a drug-containing oil comprising butylphthalide and a vegetable oil (see page 12, lines 7-19).

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should Applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
